

Molecular Cancer Genetics (Institut Pasteur), Room 316 and 324, ENS

Wednesday, October 25 (room 316)

9h00-11h00	Molecular cancer: pillars and keystones	Jean-Christophe Pagès (CHU PURPAN)
14h00-16h00	Regulation of Cell Cycle progression and diseases	Florence Margottin-Goguet (Institut Cochin)

Monday, October 30 (room 324)

9h00-10h30	Mechanisms of genome maintenance during antigen receptor diversification	Ludovic Deriano (Institut Pasteur)
14h00-17h00	Tutorials Oncolytic viruses	Philippe Afonso (Institut Pasteur)

Monday, November 6 (room 324)

09h00-11h00	Genetic predisposition to cancer	Pascal Pineau (Institut Pasteur)
14h00-17h00	Tutorials Analysis of APOBEC3A induced DNA damages in human cancer	Rodolphe Suspène (Institut Pasteur)

Wednesday, November 8 (room 324)

9h00-10h30	Guanine quadruplexes in viral replication and cancer development	Marc Lavigne (Institut Pasteur)
11h00-12h30	Genetics of Adult T-cell leukemia: The HTLV-1 associated lymphoproliferative disease	Philippe Afonso (Institut Pasteur)
14h00-17h00	Tutorials Microbiota and cancer genetics	Philippe Afonso (Institut Pasteur)
