

		Neurosciences (Mariano Casado)	
Week (2026-27)			
September	31-4	072 Neurophysiology (Mariano Casado)	Pasteur: Development & plasticity of the nervous system
	7-11		
	14-18		
	21-25		
October	28-2	086 Gender Brain across Species (Marie Gendrel)	074 TINS Interdisciplinary tutorials in neuroscience (Mariano Casado) Over the whole semester; largely compatible with most other courses.
	5-9		
	12-16		
	19-23		
November	26-30	079 Cells of the brain (Alain Bessis)	074 TINS Interdisciplinary tutorials in neuroscience (Mariano Casado) Over the whole semester; largely compatible with most other courses.
	2-6		
	9-13		
	16-20		
December	23-27	081 Neuropathology (Marie Gendrel)	074 TINS Interdisciplinary tutorials in neuroscience (Mariano Casado) Over the whole semester; largely compatible with most other courses.
	30-4		
	7-11		
	14-18		
January	21-24	080 Neuroethology (German Sumbre)	074 TINS Interdisciplinary tutorials in neuroscience (Mariano Casado) Over the whole semester; largely compatible with most other courses.
	28-31		
	4-8		
	11-15		
		082 Neuropharmacology (Laetitia Mony)	074 TINS Interdisciplinary tutorials in neuroscience (Mariano Casado) Over the whole semester; largely compatible with most other courses.
		083 Neuroendocrinology (Mariano Casado)	
		090 Advanced Data Analysis (Quentin Perrenoud, Amaury Lambert)	
		123 Advanced data analysis - Project	
		ABCB Brain vascular interfaces (Martine Cohen-Salmon, Guy Malkinson) Wednesdays 5:15-7:15 p.m.
