

Advanced **B**iology **C**ourse in...

Structure

2025

September 10th : **Biology at the molecular scale**
(Antoine Taly, DR, IBPC)

September 17th : **Structural stories about NHEJ**
(Vincent Morin, ATER, IBENS)

September 24th : **Methods In Structural biology**
(Valérie Biou, CR, IBPC)

October 1st : **Designing catalytic RNAs relevant to the origin of life** (Philippe Nghe, MCU, ESPCI)

October 8th : **Introduction to Molecular Modelling using *ab initio* methods** (Thibault Tubiana, CRCN, CNRS)

October 15th : **Structures of glutamate receptors**
(Laetitia Mony, CR, INSERM)

November 5th : **Protein disorder**
(Fabien Ferrage, DR, CNRS)

November 12th : **Practical courses**
(How to use AlphaFold & ChimeraX)

November 19th : **Modelling biomolecules dynamics**
(Antoine Taly, DR, IBPC)

November 26th : **PhD session**
(Students & more)

December 3rd : **Biological nanomotors, driving forces of life and targets for novel therapies** (Anne Houdusse-Juille, DR, CNRS, Curie)

December 10th : **A trip in RNA maturation: processing and modifications**
(Carine Tisné, DR, CNRS)

Scan for
more info

**From 5:00 to 7:00 pm at
IBENS, Paris (salle Favard)**

Coordination :

Antoine Taly
Anne Houdusse
Vincent Morin
Anahi Molla-Herman
Terence Strick
